## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

March 1, 2023

The Honorable Debra Davison  
City of Manvel  
20031 Highway 6  
Manvel, Texas 77578

**Subject:** Superior Public Water System (PWS) Recognition  
City of Manvel - PWS ID No. 0200407  
Brazoria County, Texas

Dear Mayor Davison:

The Texas Commission on Environmental Quality (TCEQ) has received your signed Agreement covering the preparation, installation, and maintenance of Superior Public Water System signs on thoroughfares entering the City of Manvel service area. The TCEQ has authorized the Superior designation in view of the high standards of water service made available to the residents of the City of Manvel.

In accordance with the letter dated January 30, 2023, my signature has been affixed to this Agreement, and a copy is being returned for your records.

The TCEQ would like to thank you for your interest and cooperation in our Public Drinking Water Program. We appreciate the City of Manvel's existing high standard of waterworks operation and continuing effort toward maintaining this level of public health protection and customer service.

If you have any questions or require further assistance, please do not hesitate to contact Leticia De Leon in the Emergency Preparedness and Response Section at [Leticia.DeLeon@tceq.texas.gov](mailto:Leticia.DeLeon@tceq.texas.gov) or (512) 239-4978.

Sincerely,

A handwritten signature in cursive script that reads "Jennelle Crane".

Jennelle Crane, Acting Section Manager  
Emergency Preparedness and Response Section  
Water Supply Division  
Texas Commission on Environmental Quality

AN AGREEMENT

In view of having received a **SUPERIOR PUBLIC WATER SYSTEM** rating in accordance with **TEXAS COMMISSION ON ENVIRONMENTAL QUALITY** standards and in order to create public confidence and to properly advertise the good quality of the drinking water supply of **City of Manvel**, the **TEXAS COMMISSION ON ENVIRONMENTAL QUALITY** has granted this permission to install standard highway markers on the recognized highways leading into the area served by **City of Manvel**.

On their part, the **OFFICIALS** of **City of Manvel** agree to prepare, install, maintain and be entirely responsible for these signs. The **OFFICIALS** further agree to effect the immediate removal of such signs whenever they are advised by the **TEXAS COMMISSION ON ENVIRONMENTAL QUALITY** that the rating of this supply has fallen below the required standards. Should the **OFFICIALS** fail to remove the signs upon notification that the rating of this supply has fallen below the required standards, it is understood and agreed that the **TEXAS COMMISSION ON ENVIRONMENTAL QUALITY** is empowered to effect their removal as though the signs were property of the **COMMISSION**.

In **AGREEMENT OF THE ABOVE CONSIDERATION**, the following parties attach their names to this understanding.

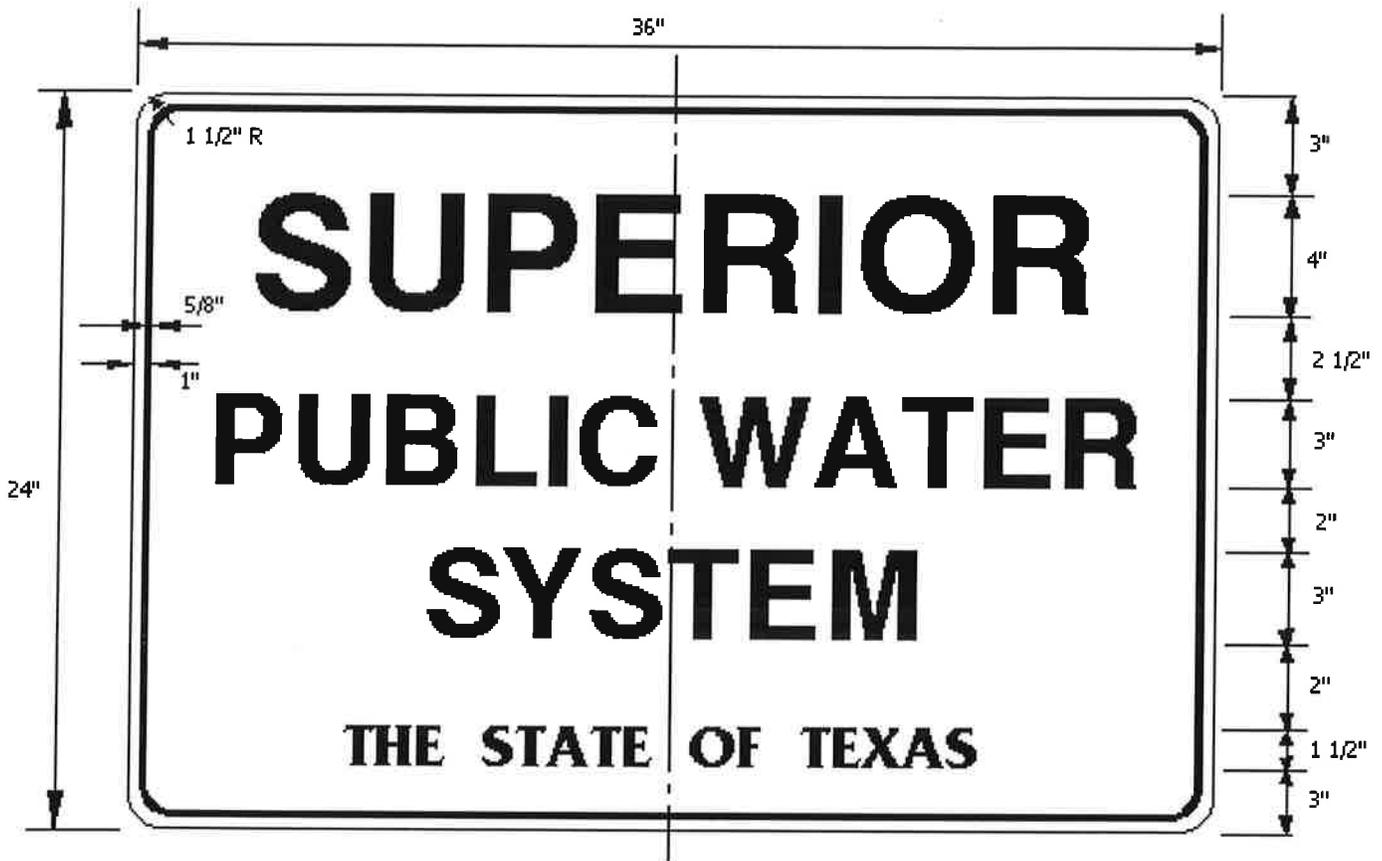

A handwritten signature in cursive script, reading "Debra Davison", written over a horizontal dashed line.

The Honorable Debra Davison, Mayor  
City of Manvel

A handwritten signature in cursive script, reading "Jennelle Crane", written over a horizontal dashed line.

Jennelle Crane, Acting Section Manager  
Emergency Preparedness and Response Section  
Water Supply Division

**Background - White**

### **LOCATION**

This sign may be erected on all highways entering towns and cities having their public water system designated as "Superior" by the Texas Commission on Environmental Quality and, when erected, shall be maintained in a first class condition as long as the water system continues to meet the requirements for this designation. If the town or city fails to maintain its superior rating, the signs shall be removed at once and shall not be replaced until superior status has been re-established. The sign shall be erected only after the District Engineer of the Texas Department of Transportation or his representative has been consulted as to the location and height of the sign. Usually, the marker will be placed at or inside the limits of the area served by the water system involved and will face incoming traffic.

The sign may be constructed locally according to the Texas Manual on Uniform Traffic Control Devices for Streets and Highways or purchased from a manufacturer of standard traffic signs.

**TEXAS COMMISSION ON ENVIRONMENTAL QUALITY**
